

## KENZA “be generously beautiful”™ - Testimonials

Thanks so much for the gift of your oils and soap. I am enjoying the purity of your products on my skin, hair and even in my apartment. About two weeks ago after receiving your sample package, my home began smelling intoxicatingly beautiful. At first I did not know where this gorgeous fragrance was coming from, I thought for a moment to myself, could that be the KENZA Pure SPA Bar Soap? Then I said no, this would be impossible because the soap is so small and was still wrapped in the plastic in the case. How could it make my entire 900 square feet home smell so wonderful? Upon further investigation I realized it was the soap! As you know, dear friend, I am so happy to have become closer to you and also so happy to use these special oils with the knowing of their special healing qualities. I have been sharing samples with my friends and acquaintances with joy in my heart. ♥. In addition it is a true blessing to know that this product is socially responsible and supporting the work of the wonderful women of Morocco as well as a woman's foundation here in NYC.

I just applied my KENZA Pure Prickly Pear Seed oil a little while ago. I love the fragrance. After using it for two months, it has healed much sun damage I had on my décolleté. What an amazing substance! Thank you for giving me this beautiful gift and for introducing me to its healing properties ♥.

Elaine, S. NY
